

## Mission Suggestions

- Evangelism
  - Develop a biblically grounded and scientifically credible congregational confession of faith
  
- Equipping the people
  - Establish a science and technology information bulletin board (Q&As)
  - Subscriptions for Church Library
  - One science journal annually
    - *Science* ([www.sciencemag.org](http://www.sciencemag.org))
    - *Nature* ([www.nature.com](http://www.nature.com))
    - *Scientific American* ([www.scientificamerican.com](http://www.scientificamerican.com))
    - *Science News* ([www.sciencenews.org](http://www.sciencenews.org))
    - *National Geographic* ([www.nationalgeographic.com](http://www.nationalgeographic.com))
    - *Discover* ([discovermagazine.com](http://discovermagazine.com))
  - One science and religion journal annually
    - *Zygon* ([www.zygonjournal.org](http://www.zygonjournal.org))
    - *Perspectives on Science and Christian Faith* ([network.asa3.org/?page=PSCF](http://network.asa3.org/?page=PSCF))
    - *Theology and Science* ([www.ctns.org/theology\\_science.html](http://www.ctns.org/theology_science.html))
    - *SciTech*  ([www.pastcf.org/scitech](http://www.pastcf.org/scitech))
  
- Acting locally
  - Perform congregational energy and environmental assays (church as a whole and individual congregational members)
  - Advocate for scientific integrity of public school science education (local districts and at state level)
  - Sponsor public ecumenical fora on locally relevant issues drawing on local scientists, engineers, public officials, clergy, and affected parties
